

Press Release 2011
Announcing the publication of:
***The A Cappella Singer Who Lost Her Voice
& Other Stories From Natural Medicine***
By Amy Rothenberg ND

In this collection of essays and patient cases from the files of a long time practitioner of natural medicine, Dr. Rothenberg's stories and musings offer readers insight into both the philosophy and practicalities of approaches used in the clinic. This book helps define and exemplify the work of a licensed naturopathic doctor. It propels patients, medical practitioners and policy makers toward a deeper understanding and appreciation of these effective, gentle approaches to healing that are often used side by side with more typical medical care.

Amy Rothenberg ND is a licensed naturopathic doctor in Enfield, Connecticut. She has been a frequent contributor to industry journals and teaches widely to both lay and medical practitioner audiences. Further information on Dr. Rothenberg can be found at: www.amyrothenberg.com and www.nhcmcd.com

Advance praise for the book:

"In this charming, informative and inspiring book, Dr. Amy Rothenberg tells the story of her life as doctor, mother and partner, and of her work with many patients. The book is philosophical, fun, poignant, and practical--and a wonderfully entertaining addition to the literature of homeopathy and of natural healing."
